WHAT IS DIGITAL RADIO?

Digital radio, utilising the DAB+ system, offers a range of exciting new features to enhance your listening experience:

- Clearer sound and improved reception
- Extra features includes pause and rewind content, downloadable music, slideshows, scrolling text, electronic program guides, updated news, sports and racing information
- Extra channels potentially double the number of commercial stations and programs available
- Tune by station name not frequency, making it easy to find your favourite station.

For further information on Digital Radio in your area, please visit www.digitalradioplus.com.au
